To Whom It May Concern:

RE: Kaiser Construction, LLC

I am writing this letter of recommendation to explain the positive experience I had with Kaiser Construction. In December 2006, Jason completed the tenant improvement project of my meal preparation kitchen and store. This was Jason's initial experience doing a food business construction project. Without hesitation, he learned about and executed the required components for a commercial kitchen. The project had very few delays, for Jason kept all of his subcontractors on task.

I have recommended Jason Kaiser to another Entrees Made Easy franchise owner. That project is currently underway. If I open another franchise store, I would choose Jason Kaiser without hesitation. His good attitude and quality craftsmanship make the project progress with ease. I would recommend Kaiser Construction for any tenant improvement project.

Sincerely,

A handwritten signature in black ink that reads "Patricia M von Kolen". The signature is fluid and cursive.
