To Whom It May Concern:

RE: JASON KAISER

I am writing this letter of recommendation to express the quality of workmanship that Jason demonstrated with the construction of my Oral & Maxillofacial Surgery Practice in Scottsdale, AZ. The interior renovation was a big project which involved the complete demolition and restructure of a medical suite to create one large oral surgical facility. Jason was the Project Foreman for the duration, from December 2003 - April 2004. I was very pleased as the project stayed on schedule and finished on time. Jason showed superior ability to keep the crews on task, and adapt the environment to accommodate the various twists that a major construction site encounters.

I would highly recommend Jason Kaiser without hesitation. His communication skills are excellent, and his follow up with the project was thorough. He was well respected by the many sub contractors involved on the project. His pride in quality craftsmanship is evident to all of those who work alongside him.

Sincerely Yours,
