Jason Kaiser
Kaiser Construction
12518 W Shaw Butte Dr
El Mirage, AZ 85335-6327

Dear Jason,

I just want to thank you for the outstanding job your company did with the construction of my pediatric dental office in Maricopa, Arizona. Kaiser Construction was a pleasure to work with, accommodating with any changes, and always willing get things done right. I am extremely pleased with the quality of your work and the efficient manner in which it was done.

I can't begin to tell you how much I appreciate Gary Egan. He did kept things moving and took care of everything I ever asked of him. He did an outstanding job at managing the schedule and understanding the big picture of what we were trying to accomplish. Gary knows what he is doing and he was incredible to work with.

Whenever I talk to other dentists about the construction of their office it seems like there are always negative comments about their contractor. I have, and will always have, the highest praise for Kaiser Construction. Whenever I get a chance I tell others about you. I also stress the importance of getting a bid from you when they are ready to build their office.

I appreciate the high standards you have set up for your company. It is very assuring to know that the quality of your work is very important to you. You proved this when you took the time to walk through my office and showed me the things that you were going to have changed. I never felt like I needed to point things out to you.

Thanks again,

Duane C. Clouse, DDS
